Chapter 12: Other Protected Areas in Fish Creek District

Contents

Introduction	12.1
Assessment for Capacity to Support Visitor Services	12.1
Focus On PPA Designations	12.1
Provincial Parks	12.1
Natural Areas	12.1
Using the Criteria	12.2
Key Rating Issues	12.2
Assessment	12.3
Important Sites	12.3
Assessment of VS Program Potential Summary Big Hill Springs Provincial Park ...	12.3
Assessment of VS Program Potential Summary Brown-Lowery Provincial Park ...	12.3
Moderate Priority Sites	12.5
Assessment of VS Program Potential Summary Bearberry Prairie Natural Area and Sundre Natural Area	12.5
Low Priority Accessible Sites	12.7
Assessment of VS Program Potential Summary Bentz Lake Natural Area	12.7
Assessment of VS Program Potential Summary Snake’s Head Natural Area ...	12.9
Assessment of VS Program Potential Summary Sundre North Natural Area	12.11
Assessment of VS Program Potential Summary Sundre Red Deer Natural Area ...	12.13
Assessment of VS Program Potential Summary Sheep Creek Natural Area ...	12.15
Assessment of VS Program Potential Summary Threepoint Creek Natural Area ...	12.17
Hard to Access Sites	12.19
Highwood River Natural Area	12.19
Wildcat Island Natural Area	12.20
Emerson Creek Natural Area	12.20
Other Sites	12.20
Eagle Hill	12.20
James River Bridge Provincial Recreation Area	12.20
Overall Recommendations for Visitor Services at Fish Creek District Natural Areas and Recreation Areas	12.21
Major Sites	12.23
Big Hill Springs Provincial Park	12.23
Site Description	12.23
History of Land Use	12.25
First Nations	12.25
Euro Canadians	12.25
Management Issues	12.25
Management History	12.25
Current Issues	12.25

Hydrology, Geology and Geomorphology... ..	12.26
Bedrock	12.26
Geomorphology	12.26
Surficial Geology and Soils	12.26
Hydrology	12.27
Surface Drainage	12.27
Underground Drainage	12.27
Map: Recharge Zone for the Park's Springs	12.27
The park	12.27
Springs and Seeps... ..	12.29
Tufa Deposits	12.29
Vegetation	12.31
Vegetation Community Types	12.31
Aspen Woodland	12.31
Balsam Poplar and Balsam Poplar - White Spruce Woodland	12.31
Willow-Dominated Shrubland	12.32
Mixed Shrublands	12.32
Native Grasslands	12.32
Modified Grasslands	12.33
Grasslands–Wet Meadows	12.33
Rare Plants	12.33
Southeast... ..	12.34
Mouth of Big Hill Springs Creek Coulee	12.34
Big Hill Creek Coulee	12.34
Trail	12.34
Wildlife	12.34
Viewscapes	12.35
Major Viewscapes	12.35
Major Viewpoint 1	12.35
Major Viewpoint 2	12.36
Major Viewpoint 2	12.36
Minor Viewscapes	12.37
Park Infrastructure	12.38
Parking Lot Area	12.38
Picnic Area	12.38
Loop Trail	12.38
Management Issues	12.39
Ecological Integrity	12.39
Cattle Grazing	12.39
Integrity of the Park's Water Regime	12.39
Water Supply for the Park's Springs and Seeps	12.39
People, Streams and Tufa	12.39
Fences and Boundaries	12.39
Research Recommendations	12.39
Research on Springs	12.39
Tufa Research	12.39
Recommendations for Visitor Services	12.40

Chapter 12: Other Protected Areas *in Fish Creek District*

Brown-Lowery Provincial Park	12.41
Site Description	12.41
History of Land Use	12.41
Climate	12.43
Geology and Geomorphology	12.43
Hydrology	12.43
This map is based on Sutherland (2000)	12.44
Vegetation	12.45
Plant Species	12.45
Forest	12.45
Forest Age	12.46
Vegetation Community Types	12.47
Forest Community Types	12.47
Fairly Dry Ecosites	12.47
Moist Well-drained Ecosites	12.47
Damp Ecosites	12.47
Wet Ecosites... ..	12.47
Grasslands, Wetlands and Disturbed Community Types	12.47
Fairly Dry - Medium Ecosite	12.47
Damp Ecosites	12.47
Hydric - Rich Ecosite	12.47
Wildlife	12.47
Mammals... ..	12.47
Birds	12.47
Park Infrastructure	12.48
Parking Lot Area	12.48
Trails	12.49
Viewpoint	12.49
Management Issues	12.50
Ecological Integrity	12.50
Forest Management	12.50
Recommendations for Visitor Services	12.51
